**The Mediterranean
and Latin-American
Accounting Profession**

Tools for
Growth and
Investment

FCM and CILEA information:

The **Fédération des Experts Comptables Méditerranéens (FCM)** represents the accountancy profession in the Mediterranean area. FCM's mission is to promote co-operation among the professional accountancy bodies in the region, both in the private and in the public sector, to share knowledge and provide technical assistance to members to help them achieve and maintain high professional and quality assurance standards.

The **Comité de Integración Latino Europa-América (CILEA)**, founded in 1997, gather professional accounting organizations from economic sciences and accountability, from European and American countries with a Latin route, that represent more than one million professionals. CILEA's mission is to promote communication between Latin countries, aiming to establish common frames in the professions legal framework, high professional competences, integrity, independence and protection of the public interest.

The event takes place with **Ordem dos Contabilistas Certificados** cooperation, FCM and CILEA Portuguese member.
